The Intelligent Decision for Distributed Organizations & Teams

Available Licenses & Packages

Choose **1** OR **2**

The Instant Business Network is a professional enterprise class software solution that is simple to use, rich with features, and capable of servicing any size business.

We offer two options for how you can license, purchase, and leverage the IBN to help increase your your business communication, coordination, and information sharing efficiencies.

1 IBN Server License Editions and Packages

- Fast Setup on your own Server
- One Time License Payment
- Lights-Out Operation
- Multiple Editions and Options
- Supports Systems Integration
- Yearly Maintenance Programs
- Easy Maintenance and Operation

For organizations of any size who have their own servers or existing infrastructure, the IBN server editions install quickly and adds true value to your organization with minimal training.

All of our server editions are easy to manage, easy to operate, and are designed to scale according to your business needs. Choose from 3 different editions.

Small Business	Professional	Enterprise
Cost-Effective small business infrastructure for distributed Intranet communication and coordination on the same platform.	Powerful and scalable Intranet and Extranet capabilities for established or growing organizations who need to be flexible with integration & customization.	Single and multi-portal capable Intranet and Extranet services designed for scalability, adaptability, systems integration and application interfacing.

2 IBN On-Demand Subscription Plans

- Instant Online Setup
- Pay as You Need
- No Infrastructure Requirements
- 24/7 Online Support
- Full Control Over your Portal
- Easily Upgradeable
- Backup and Recovery

IBN On-Demand plans are ideal for organizations wanting to streamline their internal/external communication, project coordination, file sharing, and issues management WITHOUT making investments in hardware, resources, and operational costs.

Get up and running instantly, and then customize and tune the IBN dictionaries and custom fields to map to your own unique business needs. Choose your plan type and number of users.

Monthly	Quarterly	Annual	Custom
---------	-----------	--------	--------

Subscription plans are great for small or even large companies looking to have hosted ongoing infrastructure or for "short-term" efforts.

IBN Server Editions - Comparison

All IBN Server Editions come with a complete wizard installation package that enables you to get the baseline IBN system installed and setup quickly for your target environment.

State-of-the-Art Hosting Environment

Mediachase operates and manages a state-of-the-art hosting environment using the latest software, intelligent network services, servers, and security platforms on the market. Our relationships with Microsoft, Dell, Internap, and SonicWall provide a rich operating environment and the IBN software has been specifically designed for performance, connectivity, and availability.

No Long Term Contracts

Don't worry about getting locked into long term contracts. With our monthly and quarterly plans you pay for what you use and can upgrade, change, or cancel your plan as your business needs change.

Automatic Updates to the Latest Versions

While you are on your plan, enjoy free and continuous updates of software without having to worry about paying for upgrades. Everything is included in your plan.

- Instant Online Setup
- Pay as You Need
- No Infrastructure Requirements
- 24/7 Online Support
- Full Control Over your Portal
- Easily Upgradeable
- Backup and Recovery
- No Cost Version Updates

Custom Plans and Special Hosting Requirements
